Do not scatter your energy by attempting to do more than one magickal working
at a time.

Remember that magick is the manipulation of energy, a thought is a form of energy and a visualization is an even stronger form of energy. Your visualization can be a method used to intensify further and direct your will.
Your visualization can be the method by which you control the magickal energy
you have produced. You must know what you want. You must see it. You must
feel the high energy flow. You must direct it.

One of the most important elements in the practice of any form of magick is
the universal law of cause and effect. This means that whatever you do (or
don't do) you cause something to happen.

The most important consideration is the universal law of retribution. this means that no matter what you do, it comes back to you in like kind.

It is the nature of things that as you send something out it gains momentum,
so that, by the time it comes back to you, it is three times stronger. If you
do something nice for someone, someone will do something nicer for you.

"As you weave and
        Spin your spell,
Three fold return
        the tale will tell."
